## "Enrichment Is Not a Packet"

Marco Office Supply congratulates Michelle Marks from St. Ann's School on her book "Enrichment Is Not a Packet"; out of the box strategies to enrich your high level students in a truly differentiated Classroom. Teachers can be overwhelmed by the thought of adding enrichment to their list of "to-do's." The book provides educators with fresh and exciting

new ideas for ways to truly give our "future leaders" what they really need. The book is listed on Amazon as well Barnes and Noble.

## NEW RECYCLE NEWS

We have just been notified that our recycle agency for our wholesaler will only recycle OEM's and Replacement Cartridges purchased through Marco Office Supply. Our drivers can no longer accept cartridges from outside retailers. NO quarters for your piggy banks if you purchased from a big box store, super center, recycle or refill retailers or Amazon.

If we don't supply you, unfortunately you have to ask the "other guy" or your MPS to take back your empties. So let's work together. Need pricing on replacements, we have the best pricing around!! Ask to meet with your sales rep for a quote.

## What is AOPD and what does it mean to you?

AOPD stands for American Office Product Dealers which is a national group of independent dealers who have joined forces to service national accounts and state contracts for government, school institutions and health care facilities. Multiple locations throughout Florida or nationwide you can receive the same "next day delivery service". Here's how it works: Marco Office Supply sets up your pricing, you place the order through our office and the local independent in the area will deliver. It is that easy!! We also have state contracts in which to "piggy back" off of called NCPA to Public Sector Agencies; School Districts, High Education, City, County & State Agencies, Healthcare Organizations, Church and Religious Organizations and Nonprofit Corporations. That's all you have to do is register on-line and a sales representative from our office will do rest.

## FOOD & BEVERAGE PROCESSING

### Plant Floor

#### Introducing the NEW All-Metal F-701!

Having ink pens on the plant floor was a liability. Now, with Zebra's All-Metal F-701 STEEL Retractable Ballpoint Pen, you can be assured that a shutdown will only last minutes, because unlike plastic, you'll know exactly where the contamination is. With metal detection systems, your pen will be the least of your concerns.

You know your plant inside and out. We engineer our steel pens to work as hard as you do. When you need a reliable pen, count on the original steel pens to get the job done right.

- Stainless steel barrel, metal clip and metal refill are durable and can be easily detected
- Knurled grip keeps the pen in your hand while writing
- Zebra STEEL is known for strength, long lasting performance, and is also refillable
