MARCO OFFICE SUPPLY, FURNITURE & PRINTING, INC.

Air Dryers "Blow"

Air Dryers may be high tech, but they are certainly not HYGIENIC! Here are some mind blowing statistics on air dryers.

- Jet air dryers are 75 more times more contaminated than a toilet seat (that is just gross).
- Jet air dryers blow contaminated spray up to 6.5 feet
- Jet air dryers increase germ count on fingertips by 42%
- Coliform bacteria found on 52% of jet air dryers
- Warm air dryers are worse than jet air dryers, they increase germ count on fingertips by up to 194%
- Warm dryers can take three times as long to dry hands than paper towels

**WHAT TO DO?
PRACTICE SAFE DRYING BY USING PAPER TOWELS...
MAKES SENSE TO ME!**

- Drying with a paper towel actually decreases germs on fingertips up to 77%.
- 74% of people believe it is important to have towels available to open door handles.
- Paper towels are the safest form of hand drying that creates a healthier environment.

HOW CAN WE HELP?

Let Marco Office Supply become your problem solver by offering a touchless paper towel program called "Matic Dispenser". Did you know a combination of eight dispensers gets you the product for free. this includes a combo of towel, toilet and soap dispensers. We carry an array of products from Tork, Purell, Kimberley Clarke, Georgia Pacific and many more brands. Contact your sales rep either Tom, Bret, Marianne, or Gina for assistance and the best fit for your company.

Summer time is the best time to make the change when your season slows down; especially schools, food and restaurant establishments. Time to get "HYGIENIFIED".
